

# Jewell Station Precinct Development

## Changes to Upfield shared user path

**From Friday 24 May 2019**

The Jewell Station precinct development project is being delivered by developer Neometro and VicTrack.

It will transform the area with two new retail and residential buildings and improvements to the public realm, to make it safer and more accessible.

### Changed diversion for cyclists

The Upfield shared user path will divert via the western side of the Jewell Station precinct through Watson Street.

The diversion will be in place for the duration of construction on the project, and allows upgrade works to take place in the station's forecourt.

Cyclists should obey all signs in place and take extra care when crossing the railway line. Pedestrians will continue to be able to access Jewell Station via Union Street and Wilson Avenue.

Train timetables will not be affected during the works.

**Thank you for your patience during construction.**
