

WOODEND STATION

Station car park construction

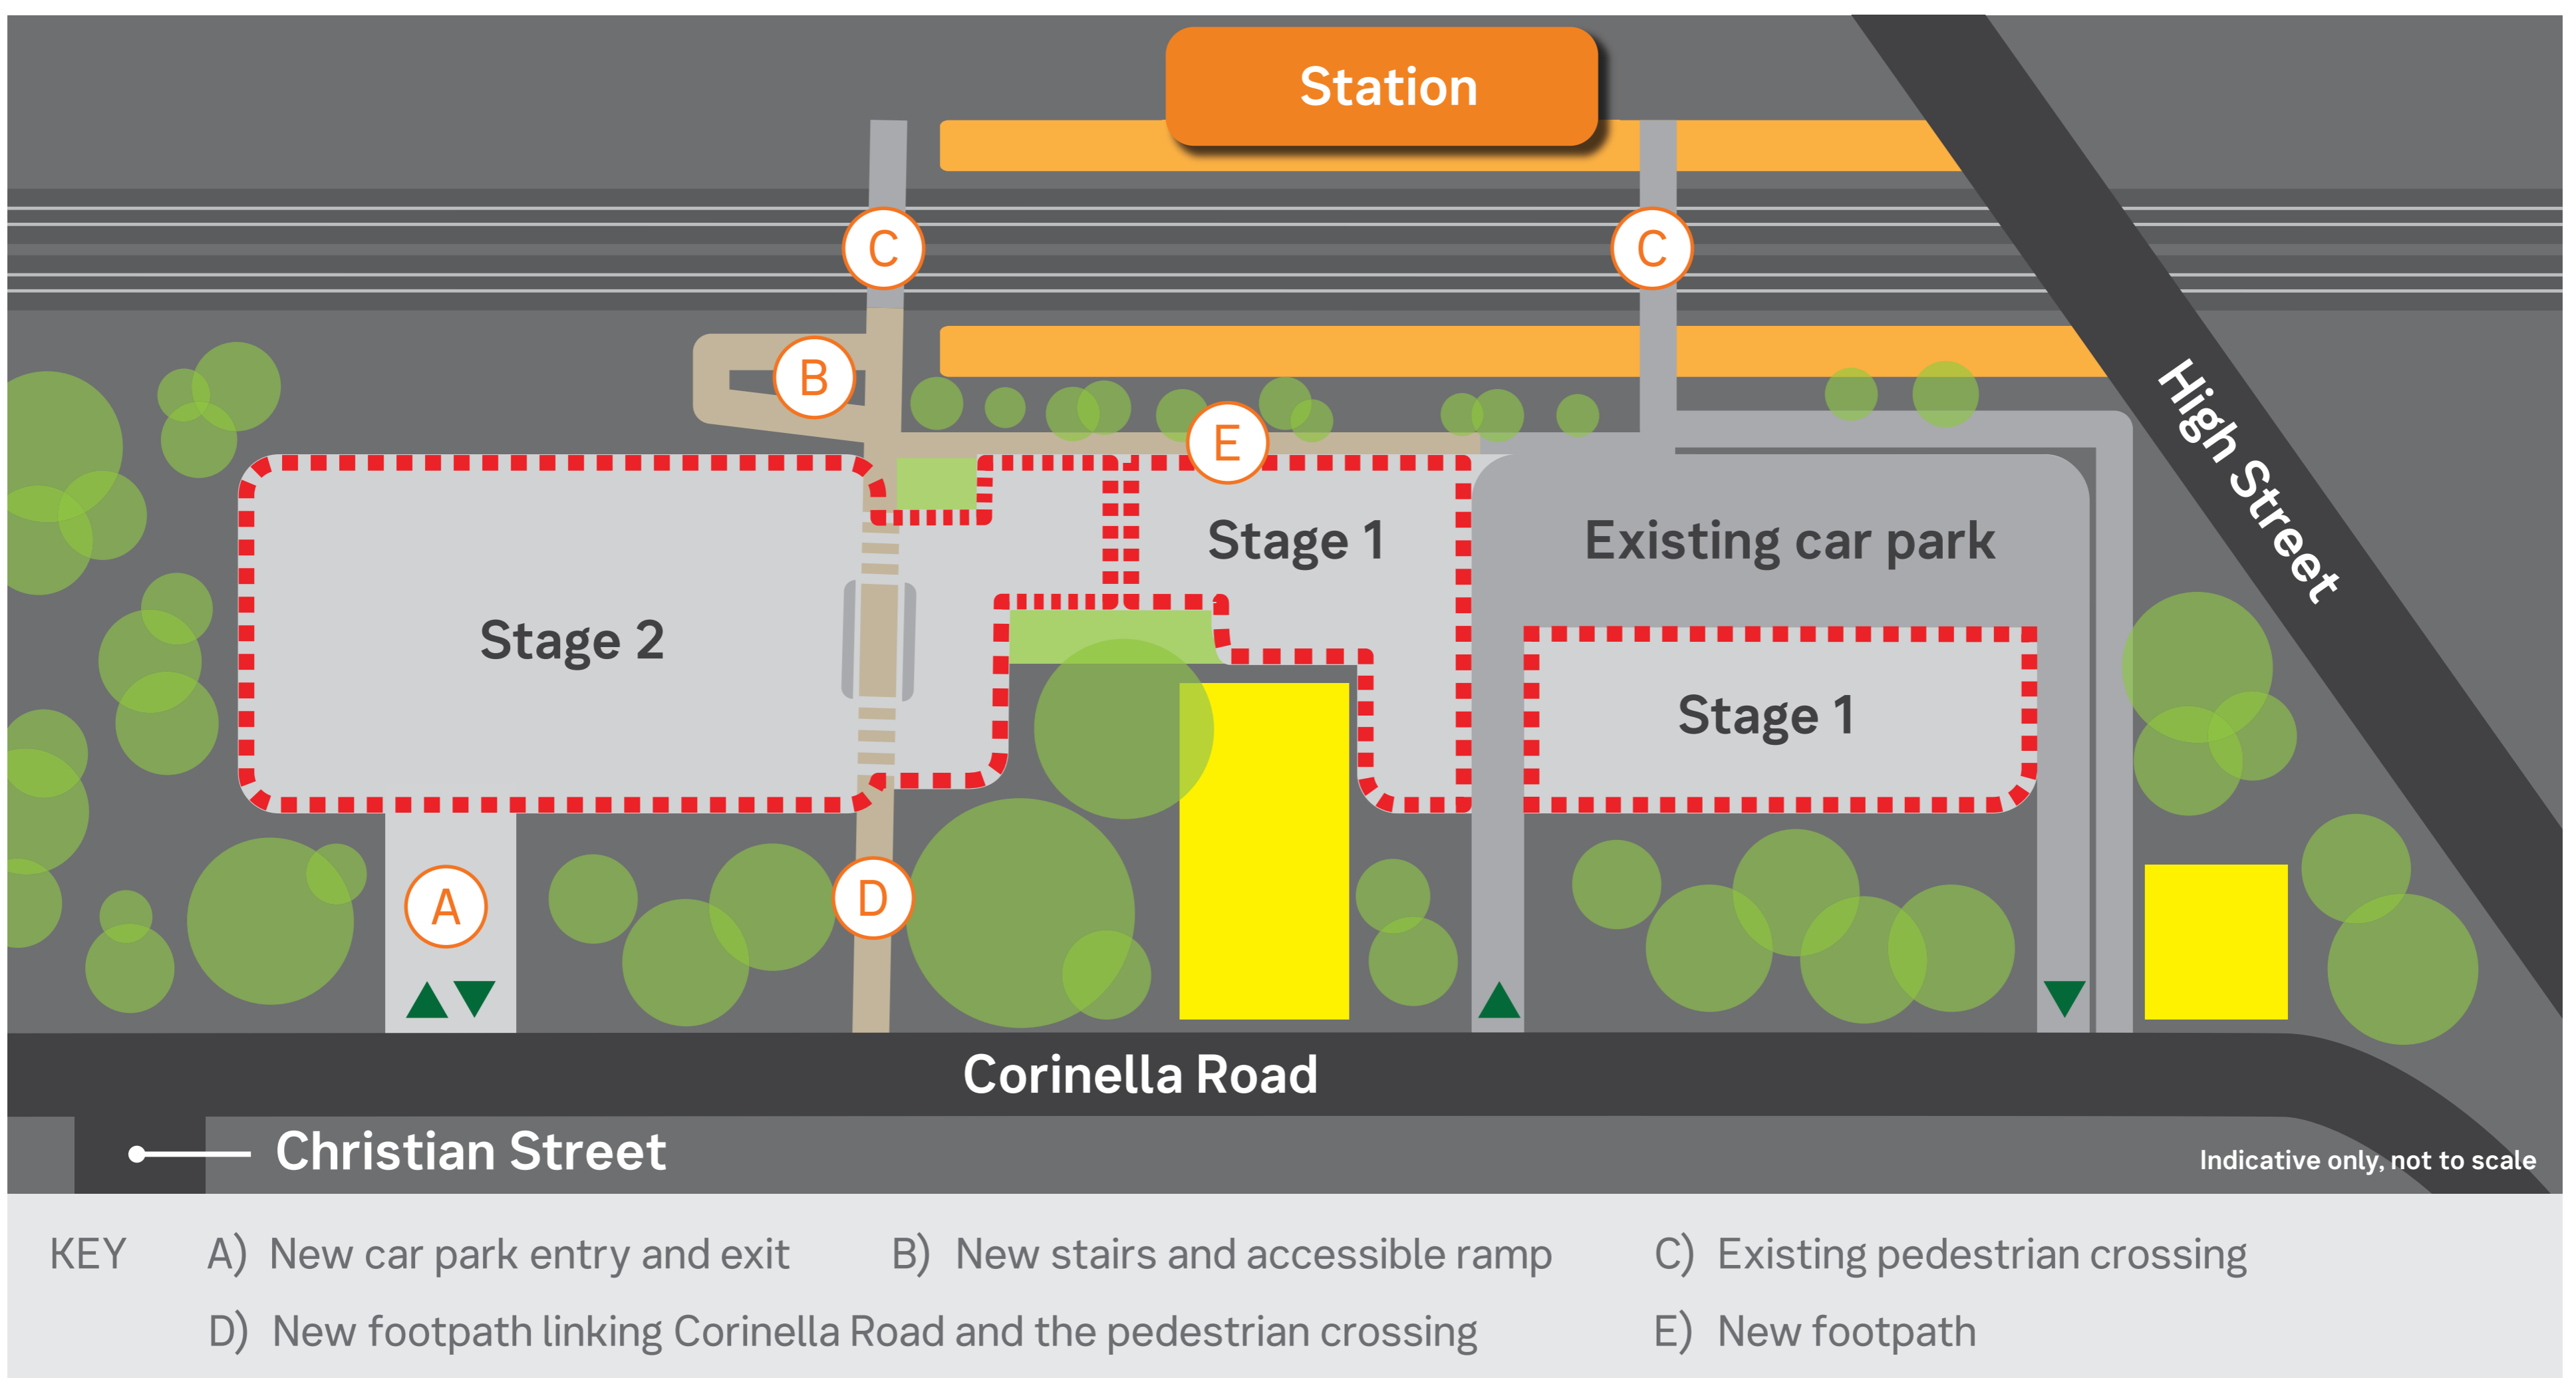

Construction will take place March – September 2018

The car park at Woodend Station will be upgraded with 195 improved car parking spaces. The existing informal car park will be closed in stages during construction to reduce the impact.

Stage 2 of the works will begin Tuesday 3 July 2018. During construction access to the pedestrian crossing and Corinella Road will be via the existing car park and platform two.

These works are part of the Victorian Government's Road and Rail Minor Works Program, delivered by VicTrack, to upgrade stations, bus stops and interchanges across regional Victoria.
