

MACEDON STATION

Station shelter and car park construction

Works will take place April - August 2018

Macedon Station is being upgraded with a new shelter and 110 new car parking spaces.

Shelter works will begin in late April. Car park works will begin in May 2018.

During car park construction the unsealed car park on Victoria Street will be closed. Please use the Railway Place car park or consider alternative parking arrangements.

These works are part of the Victorian Government's *Road and Rail Minor Works Program*, delivered by VicTrack, to upgrade stations, bus stops and interchanges across Victoria.

Thank you for your patience during construction.
