

Shepparton Station waiting area upgrade

Station waiting area - concept only

About the project

Shepparton Station is being upgraded with a new waiting room as part of the Victorian Government's *Road and Rail Minor Works Program*.

VicTrack has developed a concept design for the station waiting room, which will give commuters a safe and comfortable shelter.

As part of the program VicTrack will also deliver 11 bus shelter upgrades across Shepparton and Mooroopna.

Next steps

VicTrack will use community feedback to inform the final designs. Works are expected to begin mid 2018.
