

Riddells Creek Station Car Park

Dear resident/business

Start of construction – Riddells Creek Station car park expansion

VicTrack is delivering an expansion to the Riddells Creek Station car park through the Victorian Government's Car Parks for Commuters Program. The project will deliver a total of 50 new parking spaces, including three new accessible car spaces and 10 bicycle hoops. The new spaces will be added to the east of the existing car park, accessible via Hamilton Street once completed.

The new car park will also have CCTV, lighting, landscaping and wayfinding signage.

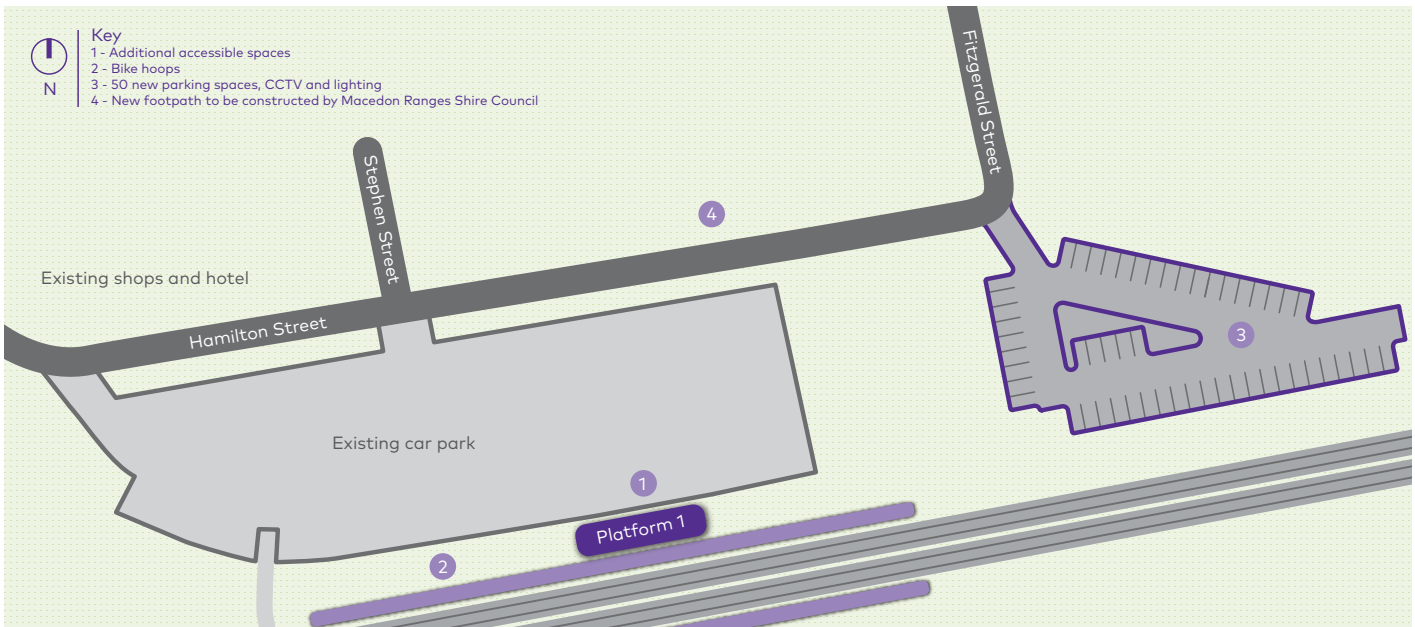

About the works

Construction of the car parking will be underway from the week commencing Monday 15 August 2022.

During the works, traffic management will be in place and barriers will be installed for the safety of station users and residents. Please follow all signs in place.

Works will take place 7am to 6pm Monday to Friday and 9am to 4pm on Saturdays. If you are nearby, you may hear noise from the works. The works will not impact train operations.

As part of road upgrade works being delivered by Macedon Ranges Shire Council, a new footpath to connect the additional car parking to the station will be added along Hamilton Street.
